## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by JP-07282468.

The Japanese reference discloses an optical recording medium comprising a substrate having a recording portion thereon. The recording portion is formed of a recording layer and a UV-resin layer applied by spin-coating. The outer periphery of the medium has a recess formed therein where the outermost edge of the medium is not as thick than the recording portion of the medium but thicker than the recess. See Figures.
